

TOP FISHING GAME

Fishing Stay (*catch & release*)

5 nights minimum – Please contact us for availability and rates.

Outings at sea with different equipped boats, equipment (trail, popper, jig ...) and experienced fishing guide.

The waters of the Nosy Be archipelago are a privileged fishing place for fans of sport fishing as well as for those who wish to initiate themselves.

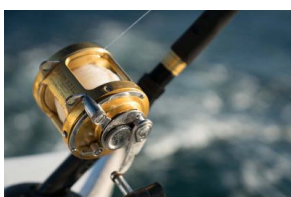

These waters possess one of the most important diversity and richness of the planet's fish, with impressive average sizes and large regular catches. Unlike most other regions of the world, one of the biggest advantages of the destination is that it can be practiced successfully all year round.

Indeed, the majority of the species of fish that populate the Malagasy waters are present and regularly active whatever the seasons. There are, however, periods more favorable to certain species.

Between the barracudas, thazards, bonito, red carps, tunas, captains, marlins (November to June), grouper, caranges, fish with rostrum (June to December) without forgetting swordfish (April to November), you have every chance to be satisfied that it is in fishing jig, throw, popper, traine and palangrotte to the alive or lures ...

Our boats, very well equipped, accompanied by a fishing guide.

Very experienced guarantor, guarantee safe, unforgettable fishing. Catch & Release is commonly practiced.

Please contact us for further information.
